

Welcome to Arcadia!

When you pull into the driveway, you will see the big grey building. This is the Arcadia Nature Center.

Meet your Naturalist

A teacher naturalist will welcome you out front and tell you about your visit.

Getting Started

Follow your naturalist into the auditorium where you will have a seat on the floor in a circle and get ready to listen.

Hiking Groups

After your introduction, listen for your hiking group. You may not be with your best friends but that's ok, you'll see them soon.

Be sure to dress for the weather! It may be cold, hot, or wet on the day of your visit.

Bathroom Break

Before you leave for your hike, you'll have the chance to use the bathroom.

On the Trail

When everyone is ready, you'll set out on the trails. Stay together, listen to your naturalist, and have fun exploring.

Being Safe

You'll see lots of interesting animal signs and plants on your hike. Your naturalist will let you know what is safe to touch.

This plant is poison ivy. If you touch it, you can get an itchy rash.

Good Bye

After your program you may stay to have lunch at the picnic tables or you may go right back to school.

We hope you had a wonderful visit and come back soon!
